28: Critical Resource Needs (amount, type, kind and number of operational periods () in priority order in 12, 24, 48, and 72 hour time frames):

12 hours: **2 DIVS**

24 hours: **2 DIVS**

48 hours: **2 DIVS**

72 hours: **2 DIVS**

29: Major problems and concerns (control problems, social/political/economic concerns or impacts, etc.) Relate critical resources needs identified above to the Incident Action Plan.

**Extremely dry conditions make control difficult, Firefighter fatigue. Reburning due to needle fall in areas that were previously burned. Structures on along east line near Randall Crews Road are still threatened until mopup and line improvement is completed. Logging operations within the burned area is a concern for firefighter safety if they are in one of the logging areas. Logging operations have a potential to stir up hot spots and cause reburning and spread of fire. Reburning. Structure protection within the Okefenokee Swamp Park.**
